Part 1 – Annual Budget

1.1 Mayor's Report

It is my privilege to table this budget and other related documents for 2015/2016 and the two outer years as prescribed in terms of section 16 of the Municipal Finance Management Act.

As a result of the intensive planning process undertaken through the IDP, the budget presented today is in line with the needs of the communities we serve. The operating budget amounts to R251.569 million. The bulk of the income is derived from Assessment Rates and User Charges for Services.

The capital budget amounts to just more than R71.789 million. Expenditure out of own funds are R7.619 million. New loan funding of R8.569 million will be taken up in the financial year. In addition to this, external grants of R 17.051 million are included in this budget.

The following adjustments to the employee related costs were made:

- The general salary increase of 5.80% must be implemented.
- Notch increases are limited to 2.35% where applicable.
 - The total employee costs will not increase by more than 8% on the 2014/2015 budgeted amount.

Given the global economic realities the council's tariff increases were limit to approximately 6% except for electricity. The tariff for electricity increases by 12.2% as advised in the guideline circular from NERSA plus a further 2c per kwh which represent the tax increase announced by the Minister of Finance in his speech to Parliament.

Management within local government has a significant role to play in strengthening the link between the citizen and government's overall priorities and spending plans. The goal should be to enhance service delivery aimed at improving the quality of life for all people within the Bergvrijer Municipality. Budgeting is primarily about the choices that the municipality has to make between competing priorities and fiscal realities. The challenge is to do more with the available resources. We need to remain focused on the effective delivery of the core municipal services through the application of efficient and effective service delivery mechanisms.

The application of sound financial management principles in the compilation of the municipality's financial plan is essential and critical to ensure that Bergvrijer Municipality remains financially viable and that sustainable municipal services are provided economically and equitably to all communities.

Our responsibility as a sphere of government is to ensure that the quality of life of all that live and work in Bergvrijer Municipality is improved. We will continue to engage in both progressive and meaningful discussions with our communities to shape a clear path from which governance, and development, will draw guidance and direction. The Council will continue to pursue and encourage community participation programmes to ensure our plans are in line with community needs.

In conclusion, I would like to thank the Municipal Manager, the Chief Financial Officer and the personnel in the Budget Office, Directors and other personnel who were involved in compiling this IDP and budget. The effort and hard work that have already gone into this have not gone unnoticed and Council would like to express their appreciation to all involved.

1.2 Council Resolution (Recommended)

- 1) The Council of Bergrivier Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
 - a) The annual budget of the municipality for the financial year 2015/16 and the multi-year and single-year capital appropriations as set out in the following tables:
 - i) Budgeted Financial Performance (revenue and expenditure by standard classification) – Table A2;
 - ii) Budgeted Financial Performance (revenue and expenditure by municipal vote) – Table A3;
 - iii) Budgeted Financial Performance (revenue by source and expenditure by type) – Table A4; and
 - iv) Multi-year and single-year capital appropriations by municipal vote and standard classification and associated funding by source – Table A5.
 - b) The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
 - i) Budgeted Financial Position – Table A6;
 - ii) Budgeted Cash Flows – Table A7;
 - iii) Cash backed reserves and accumulated surplus reconciliation – Table A8;
 - iv) Asset management – Table A9; and
 - v) Basic service delivery measurement – Table A10.
- 2) The Council of Bergrivier Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2015:
 - a) the tariffs for property rates,
 - b) the tariffs for electricity,
 - c) the tariffs for the supply of water
 - d) the tariffs for sanitation services
 - e) the tariffs for solid waste services
- 3) The Council of Bergrivier Municipality, acting in terms of 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2015 the tariffs for other services as contained in the tariff list included in the budget document.
- 4) To give proper effect to the municipality's annual budget, the Council of Bergrivier Municipality approves:
 - a) That cash backing is implemented through the utilisation of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, unspent long-term loans and unspent conditional grants are cash backed as required in terms of section 8 of the Municipal Budget and Reporting Regulations.
 - b) That the municipality be permitted to enter into long-term loans for the funding of the capital programmes in respect of the 2015/16 financial year limited to an amount of R8.569 million in terms of Section 46 of the Municipal Finance Management Act.
 - c) That the Municipal Manager be authorised to sign all necessary agreements and documents to give effect to the above lending programme.

- 5) The following policies were reviewed and the Council of Bergvlier Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts the following existing policies:
 - a) Asset management policy
 - b) Cash Management and Investment policy
 - c) Credit control and Debt collection policy
 - d) Property Rates policy
 - e) Tariff policy
 - f) Virement policy
 - g) Property Rates Bylaw
 - h) Supply Chain Management policy
 - i) Borrowing Policy
 - j) Funding, Reserves and Long Term Financial Planning Policy
- 6) The electricity tariff increase contained in the tariff list is subject to approval by NERSA. Any changes thereto will be accommodated in the final budget document.

- 21.6 Die Munisipaliteit of sy gemagtigde verteenwoordiger sal ten minste een keer per jaar die aansoeker besoek te einde die korrektheid van alle inligting te verifieer.

1.3 Executive Summary

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have' items.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 70 and 71 was used to guide the compilation of the 2014/15 MTREF.

The main challenges experienced during the compilation of the 2015/16 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk water and electricity (due to tariff increases from West Coast District Municipality and Eskom), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Salary increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Availability of affordable borrowing for the funding of capital projects.

The following budget principles and guidelines directly informed the compilation of the 2015/16 MTREF:

- The 2014/15 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2015/16 annual budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality, for instance the cost of bulk water and electricity. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address infrastructure backlogs;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;

The following table is a consolidated overview of the proposed 2015/16 Medium-term Revenue and Expenditure Framework:

Consolidated Overview of the 2015/16 MTREF

	Adjusted Budget	Budget Year 2015/16	Budget Year +1 2016/17	Budget Year +2 2017/18
Total Revenue (including capital transfers and contributions)	252,446,359.07	307,130,000.00	298,442,926.00	338,155,095.54
Total Expenditure	236,868,629.20	258,012,975.08	276,209,529.97	298,115,836.82
Surplus/(Deficit)	15,577,729.87	49,117,024.92	22,233,396.03	40,039,258.72
Capital expenditure	32,043,581.00	71,789,050.00	43,861,000.00	62,647,000.00

Total operating revenue has grown by 22 per cent or R54.683 million for the 2015/16 financial year when compared to the 2014/15 Adjustments Budget. For the two outer years, operational revenue will decrease by 3 per cent in the second year and increase with 13 per cent in the third year, equating to a total revenue growth of R31.025 million over the MTREF when compared to the 2015/16 financial year.

Total operating expenditure for the 2015/16 financial year has been appropriated at R258.013 million and translates into a budgeted surplus of R49.117 million. When compared to the 2014/15 Adjustments Budget, operational expenditure has grown by 8.60 per cent in the 2015/16 budget and by 1.07 and 1.08 per cent for each of the respective outer years of the MTREF. The expenditure for the two outer years increases with R18.197 million and R21.906 million respectively.

The capital budget of R71.789 million for 2015/16 increase with 124.03 percent when compared to the 2014/15 Adjustment Budget. This big increase is due to Housing Grant of R 38.550 million. The capital programme decreases to R43.861 million in the 2016/17 financial year and then evens out in 2017/18 to R62.647 million. Borrowing will contribute 11.94, 14.82 and 13.41 per cent of capital expenditure in each of the MTREF years. The balance will be funded from internally generated funds and grants.

1.4 Operating Revenue Framework

For Bergrivier Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

National Treasury continues to encourage municipalities to keep increases in rates, tariffs and other charges as low as possible. Excessive increases are likely to be counterproductive, resulting in higher levels of non-payment. The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. Within this framework the Municipality has undertaken the tariff setting process relating to service charges as follows.

1.4.1 Property Rates

Property rates cover the cost of the provision of general services. Determining the effective property rate tariff is therefore an integral part of the municipality's budgeting process.

National Treasury's MFMA Circular No. 51 deals, inter alia with the implementation of the Municipal Property Rates Act, with the regulations issued by the Department of Co-operative Governance. These regulations came into effect on 1 July 2009 and prescribe the rate ratio for the non-residential categories, public service infrastructure and agricultural properties relative to residential properties to be a minimum of 0,25:1. The implementation of these regulations was done in the previous budget process and the Property Rates Policy of the Municipality has been amended accordingly.

The following stipulations in the Property Rates Policy are highlighted:

- The first R15 000 of the market value of a property used for residential purposes is excluded from the rate-able value (Section 17(h) of the MPRA). In addition to this rebate, a further R5 000 reduction on the market value of a property will be granted in terms of the Municipality's own Property Rates Policy;
- For pensioners, physically and mentally disabled persons, a maximum rebate of 50 per cent will be granted to owners of rate-able property. In this regard the following stipulations are relevant:
 - The rate-able property concerned must be occupied only by the applicant and his/her spouse, if any, and by dependants without income;
 - The applicant must submit proof of his/her age and identity and, in the case of a physically or mentally handicapped person, proof of certification by a Medical Officer of Health, also proof of the annual income from a social pension;
 - The applicant's account must be paid in full, or if not, an arrangement to pay the debt should be in place; and
 - The property must be categorized as residential.
- The Municipality may award a 100 per cent grant-in-aid on the assessment rates of rate-able properties of certain classes such as registered welfare organizations, institutions or organizations performing charitable work, sports grounds used for purposes of amateur sport. The owner of such a property must apply to the Chief Financial Officer in the prescribed format for such a grant.

The categories of rate-able properties for purposes of levying rates and the proposed rates for the 2015/16 financial year based on approximately 6 per cent increase from 1 July 2015 is contained below:

Comparison of proposed rates to levy for the 2015/16 financial year

Category	Current Tariff (1 July 2014)	Proposed tariff (from 1 July 2015)
	C	C
Residential properties	.00919	.00974
State owned properties	.00919	.00974
Business & Commercial	.01011	.01072
Agricultural	.00230	.00244

1.4.2 Sale of Water and Impact of Tariff Increases

South Africa faces similar challenges with regard to water supply as it did with electricity, since demand growth outstrips supply. Consequently, National Treasury is encouraging all municipalities to carefully review the level and structure of their water tariffs to ensure:

- Water tariffs are fully cost-reflective – including the cost of maintenance and renewal of purification plants, water networks and the cost associated with reticulation expansion;
- Water tariffs are structured to protect basic levels of service and ensure the provision of free water to the poorest of the poor (indigent); and
- Water tariffs are designed to encourage efficient and sustainable consumption.

Better maintenance of infrastructure, new reservoir construction and cost-reflective tariffs will ensure that the supply challenges are managed in future to ensure sustainability.

A tariff increase of approximately 6 per cent from 1 July 2015 for water is proposed. In addition 6 kℓ water per month will ONLY be granted free of charge to registered indigent residents.

A summary of the proposed tariffs for households (residential) and non-residential are as follows:

Proposed Water Tariffs

CATEGORY	CURRENT TARIFFS 2014/15 BTW Incl	PROPOSED TARIFFS 2015/16 BTW Incl
	Rand per kℓ	Rand per kℓ
RESIDENTIAL		
(i) 0 to 6 kℓ per 30-day period	5.85	6.20
(ii) 7 to 20 kℓ per 30-day period	11.79	12.50
(iii) 21 to 50 kℓ per 30-day period	11.79	12.50
(iv) 51 to 100 kℓ per 30-day period	13.58	14.39
(v) 101 to 200 kℓ per 30-day period	14.26	15.12
(vi) 201 to 1000 kℓ per 30-day period	15.01	15.91
(vii) 1001 to 1500 kℓ per 30-day period	12.75	13.52
(viii) 1501 to 2000 kℓ per 30-day period	10.83	11.48
(ix) More than 2000 kℓ per 30-day period:	9.17	9.72

The tariff structure of the 2015/16 financial year has not been changed. The tariff structure is designed to charge higher levels of consumption a higher rate, steadily increasing to a rate of R15.91 per kilolitre for consumption in excess of 200kℓ per month, thereafter the rate decrease.

1.4.3 Sale of Electricity and Impact of Tariff Increases

NERSA has announced the revised bulk electricity pricing structure. A 14.24 percent increase in the Eskom bulk electricity tariff to municipalities will be effective from 1 July 2015.

Considering the Eskom increases, the consumer tariff had to be increased by approximately 12.20 per cent to offset the additional bulk purchase cost from 1 July 2015. The Minister of Finance announced the increase of the tax on electricity by a further 2c per kwh. This will result in a tariff increase on consumption of approximately 14.2% on average. Furthermore, it should be noted that given the magnitude of the tariff increase, it is expected to depress growth in electricity consumption, which will have a negative impact on the municipality's revenue from electricity.

50 kWh free electricity per month will **ONLY** be granted to registered indigents and households with 20 Ampere connections.

The following table shows the impact of the proposed increases in electricity tariffs for domestic customers:

Comparison between current electricity charges and increases (Domestic)

Monthly consumption kWh	Current Tariff BTW Incl	Proposed Tariff BTW Incl	Percentage change
0 - 50	.83	.95	14.95%
51 - 350	1.04	1.19	14.39%
351 - 600	1.18	1.35	14.13%
601 +	1.29	1.47	13.97%

It should further be noted that NERSA has advised that a stepped tariff structure needs to be implemented from 1 July 2011. The effect thereof will be that the higher the consumption, the higher the cost per kWh. The aim is to subsidise the lower consumption users (mostly the poor). The council has entered into discussions with NERSA regarding the suitability of the NERSA proposed stepped tariffs compared to those already being implemented by the Municipality already. Until the discussions are concluded, the Municipality will maintain the current stepped structure of its electricity tariffs.

The approved budget for the Electricity Division can only be utilised for certain committed upgrade projects and to strengthen critical infrastructure (e.g. substations without back-up supply).

Owing to the high increases in Eskom's bulk tariffs, it is clearly not possible to fund these necessary upgrades through increases in the municipal electricity tariff – as the resultant tariff increases would be unaffordable for the consumers. It is therefore proposed that the taking up of loans as a strategy for funding of the infrastructure be considered and approved to spread the burden over the life span of the assets.

1.4.4 Sanitation and Impact of Tariff Increases

A tariff increase of approximately 6 per cent for sanitation from 1 July 2015 is proposed. This is based on the input cost assumptions related to water. It should be noted that electricity costs contributes approximately 20 per cent of waste water treatment input costs, therefore higher than CPI increase of 6 per cent for sanitation tariffs. The following factors also contribute to the proposed tariff increase:

- Free sanitation will be applicable to registered indigents; and
- The total revenue expected to be generated from rendering this service amounts to R12.515 million for the 2015/16 financial year.

1.4.5 Waste Removal and Impact of Tariff Increases

A 6 percent increase in the waste removal tariff is proposed from 1 July 2015. Higher increases will not be viable in 2015/16 owing to the significant increases implemented in previous financial years as well as the overall impact of higher than inflation increases of other services. Any increase higher than 6 per cent would be counter-productive and will result in affordability challenges for individual rates payers raising the risk associated with bad debt.

The following table compares current and proposed amounts payable from 1 July 2015:

Comparison between current waste removal fees and increases

	CURRENT TARIFFS 2014/15 BTW Incl	PROPOSED TARIFFS 2015/16 BTW Incl
Solid Waste removal	R 170.22	R 180.00

1.4.6 Overall impact of tariff increases on households

The following table shows the overall expected impact of the tariff increases on a large and small household, as well as an indigent household receiving free basic services.

1.5 Operating Expenditure Framework

Bergrivier Municipality's expenditure framework for the 2015/16 budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to the asset renewal strategy and backlog eradication plan;
- Operational gains and efficiencies will be directed to funding the capital budget and other core services; and

The following table is a high level summary of the 2015/16 budget and MTREF (classified per main type of operating expenditure):

Description	R thousand	2015/16 Medium Term Revenue & Expenditure Framework		
		Adjusted Budget	Budget Year 2015/16	Budget Year +1 2016/17

Bulk purchases	62,585	73,141	78,992	85,312
Transfers and grants	3,170	3,381	3,651	3,942
Other expenditure	45,601	46,098	47,696	51,896
Total Expenditure	236,869	258,013	276,210	298,116

The budgeted allocation for employee related costs for the 2015/16 financial year totals R97.467 million, which equals 37.78 per cent of the total operating expenditure. Based on the three year collective SALGBC agreement, salary increases have been factored into this budget at a percentage increase of 5.8 per cent for the 2015/16 financial year.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Council's budget.

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate asset consumption. Budget appropriations in this regard total R17.944 million for the 2015/16 financial year and equates to 6.95 per cent of the total operating expenditure. Note that the implementation of GRAP 17 accounting standard has meant bringing a range of assets previously not included in the assets register onto the register. This has resulted in a significant increase in depreciation relative to previous years.

Finance charges consist primarily of the repayment of interest on long-term borrowing (cost of capital). Finance charges make up 4.22 per cent (R10.893 million) of operating expenditure excluding annual redemption for 2015/16 and increases to R12.636 million by 2017/18.

Bulk purchases are directly informed by the purchase of electricity from Eskom and water from West Coast District Municipality. The annual price increases have been factored into the budget appropriations and directly inform the revenue provisions. The expenditures include distribution losses.

Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved. Further details relating to contracted services can be seen in Table SA1

1.6 Capital expenditure

The following table provides a breakdown of budgeted capital expenditure by vote:

Total Capital Expenditure - Vote	32,208	71,789	43,861	62,647

The Capital Budget increases from R32 044 million in 2014/15 to R71 789 million in 2015/16. This overall growth of 124.03% can be attributed to various factors:

- Increased allocation made by Provincial Government for Housing

Total new assets represent 83.23 per cent or R59.747 million of the total capital budget while asset renewal equates to 16.77 per cent or R12.042 million. Further detail relating to asset classes and proposed capital expenditure is contained in Table A9 (Asset Management). In addition to the Table A9, Tables SA34a, b, c provides a detailed breakdown of the capital programme relating to new asset construction, capital asset renewal as well as operational repairs and maintenance by asset class.

The future operational costs and revenues associated with the capital programme have been included in Table SA35.

Part 2 – Supporting Documentation

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Deputy Mayor.

The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Council's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

2.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2014) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled in Council the required the IDP and budget time schedule on 30 July 2014.

2.1.2 IDP and Service Delivery and Budget Implementation Plan

Bergrivier Municipality approved a five year 3rd generation Integrated Development Plan (IDP) for the 2012/13 – 2016/17 financial years on 24 May 2012. This is the third revision (2015/16) of the IDP which was compiled in terms of Section 34(a) of the Local Government Municipal Systems Act, Act 32 of 2000 (Municipal Systems Act).

The Municipality's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the fourth revision cycle included the following key IDP processes and deliverables:

- Registration of community needs;
- Compilation of departmental strategic plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP, and
- The review of the performance management and monitoring processes.

The IDP has been taken into a business and financial planning process leading up to the 2015/16 MTREF, based on the approved 2014/15 MTREF, Mid-year Review and adjustments budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2015/16 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and third quarter performance against the 2014/15 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

2.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning

provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the Council, issues of national and provincial importance should be reflected in the IDP of the municipality. A clear understanding of such intent is therefore imperative to ensure that the Council strategically complies with the key national and provincial priorities.

The aim of this revision cycle was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of national and provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the Council's response to these requirements.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP's five strategic objectives for the 2015/16 MTREF and further planning refinements that have directly informed the compilation of the budget:

IDP Goals and Strategic Objectives

GOALS	STRATEGIC OBJECTIVES
1. A financially viable and sustainable Municipality	1. To budget strategically, grow and diversify our revenue and ensure value for money services
2. An effective productive administration capable of sustainable service delivery	2. To create an efficient, effective and accountable administration
3. An open transparent corruption free and responsive Municipality	3. To provide open transparent corruption free governance 4. To communicate effectively and be responsive to the needs of the Community
4. A quality living environment that is conducive to development and investment	5. To provide and maintain bulk and service infrastructure that will address backlogs and provide for future development
5. A safe, healthy and secure living environment	6. To promote the well-being, health , safety and security of our community
6. Sustainable development of the Municipal Area (environment, economy, people)	7. To develop , manage and regulate the built environment 8. To conserve and manage the natural environment and mitigate the impacts of climate change 9. To promote cultural and socio economic development of our community

In order to ensure integrated and focused service delivery between all spheres of government it was important for the Municipality to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities. ;

The 2015/16 MTREF has therefore been directly informed by the IDP revision process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

2.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the Council has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assess and reviews organisational performance which in turn is directly linked to individual employee's performance.

The following table sets out the municipalities main performance objectives and benchmarks for the 2015/16 MTREF

3.1.1 Free Basic Services: basic social services package for indigent households

The social package assists residents that have difficulty paying for services and are registered as indigent households in terms of the Indigent Policy of the Council. With the exception of electricity, only registered indigents qualify for the free basic services.

For the 2014/15 financial year 2175 registered indigents have been provided for in the budget with this figure increasing to 2400 by 2015/16. In terms of the Municipality's indigent policy registered households are entitled to 6kl free water, 50 kwh of electricity, sanitation and free waste removal once a week, as well as a discount on their property rates.

Further detail relating to the number of households receiving free basic services, the cost of free basic services, highest level of free basic services as well as the revenue cost associated with the free basic services is contained in Table A10 (Basic Service Delivery Measurement).

2.4 Overview of budget related-policies

The Council budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies. The following policies forms part of the budget document and has been reviewed as indicated.

- 2.4.1 Asset management policy
- 2.4.2 Cash Management and Investment policy
- 2.4.3 Credit control and Debt collection policy

2.5 Overview of budget assumptions

Key Financial Indicators

Budget assumptions and parameters are determined in advance of the budget process to allow budgets to be constructed to support the achievement of the longer-term financial and strategic targets. The assumptions and principles applied in the development of this budget are mainly based upon guidelines from national Treasury (expenditure growth) and other external bodies such as the National Regulator of South Africa (NERSA) and West Coast District Municipality. The municipal fiscal environment is influenced by a variety of macro economic control measures. National Treasury determines the ceiling of year-on-year increases in the total operating budget, whilst the national Electricity Regulator (NER) regulates electricity tariff increases. Various government departments also affect municipal service delivery through the level of grants and subsidies.

The following key assumptions underpinned the preparation of the medium-term budget:

Inflation rates - CPI	4.8
Interest Rate (Prime)	9.25%
Growth	2.0

2.6.3 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understandability for councillors and management.

2.6.5 Funding compliance measurement

National Treasury requires that the municipality assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below.

Table SA10 – Funding compliance measurement

2.10 Contracts having future budgetary implications

In terms of the Council's Supply Chain Management Policy, no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Financial Management Division of the Treasury Department.

2.12 Legislation compliance status

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

1. In-year reporting

Reporting to National Treasury in electronic format was fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor (within 10 working days) has progressively improved and includes monthly published financial performance on the Council's website.

2. Internship programme

The Council's is participating in the Municipal Financial Management Internship programme and has employed four interns undergoing training in various divisions of the Financial Services Department. Since the introduction of the Internship programme the Council has successfully employed and trained 8 interns through this programme and a majority of them were appointed either within the municipality or other Municipalities.

3. Budget and Treasury Office

The Budget and Treasury Office has been established in accordance with the MFMA.

4. Audit Committee

An Audit Committee has been established and is fully functional.

5. Service Delivery and Implementation Plan

The detail SDBIP document is at a draft stage and will be finalised after approval of the 2015/16 MTREF in May 2015 directly aligned and informed by the 2015/16 MTREF.

6. Annual Report

Annual report is compiled in terms of the MFMA and National Treasury requirements

7. Policies

An amendment of the Municipal Property Rates Regulations as published in Government Notice 363 of 27 March 2009, was announced in Government Gazette 33016 on 12 March 2010. The ratios as prescribed in the Regulations have been complied with.
