#### APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements, which are set out on pages 4 to 84 in terms of Section 126 (1) of the Municipal Finance Management Act (Act 56 of 2003) and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2017 and is satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Adv H Linde Municipal Manager

31 August 2016

# Report of the auditor-general to the Western Cape Provincial Parliament and the council on the Bergrivier Municipality

# **Report on the financial statements**

# Introduction

1. I have audited the financial statements of the Bergrivier Municipality set out on pages 4 to 96, which comprise the statement of financial position as at 30 June 2016, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget information and actual amounts for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

# Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2015 (Act No. 1 of 2015) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor-general's responsibility

- 3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- 5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

# Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Bergrivier Municipality as at 30 June 2016 and its financial performance and cash flows for the year then ended, in accordance with SA Standards of GRAP and the requirements of the MFMA and DoRA.

# Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

# Restatement of corresponding figures

8. As disclosed in note 38 to the financial statements, the corresponding figures for 30 June 2015 have been restated as a result of errors discovered during the 2015-16 financial year in the financial statements of the municipality at, and for the year ended, 30 June 2015.

# Material impairments

- 9. As disclosed in note 17 to the financial statements, the municipality has provided for the impairment of trade and other receivables from exchange transactions amounting to R5,4 million.
- 10. As disclosed in note 18 to the financial statements, the municipality has provided for the impairment of trade and other receivables from non-exchange transactions amounting to R18,4 million.

# Additional matters

11. I draw attention to the matters below. My opinion is not modified in respect of these matters.

# Unaudited supplementary schedules

12. The supplementary information set out on pages 85 to 96 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

## Unaudited disclosure notes

13. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion thereon.

# Report on other legal and regulatory requirements

14. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for

selected objectives presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading, but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

# Predetermined objectives

- 15. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected objectives presented in the annual performance report of the municipality for the year ended 30 June 2016:
  - Objective 4: to communicate effectively and be responsible to the needs of the community on page 11
  - Objective 5: to provide and maintain bulk and service infrastructure that will address backlogs and provide for future development on pages 18 to 23
  - Objective 7: to develop, manage and regulate the built environment on page 15
  - Objective 9: to promote cultural and socio-economic development of our community on page 16
- 16. I evaluated the usefulness of the reported performance information to determine whether it was consistent with the planned objectives. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for Managing Programme Performance Information.
- 17. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
- 18. I did not identify material findings on the usefulness and reliability of the reported performance information for the following objectives:
  - Objective 4: to communicate effectively and be responsible to the needs of the community
  - Objective 5: to provide and maintain bulk and service infrastructure that will address backlogs and provide for future development
  - Objective 7: to develop, manage and regulate the built environment
  - Objective 9: to promote cultural and socio economic development of our community

## Additional matters

19. Although I identified no material findings on the usefulness and reliability of the reported performance information for the selected objectives, I draw attention to the following matters:

# Achievement of planned targets

20. Refer to the annual performance report on pages 7 to 25 for information on the achievement of the planned targets for the year.

## Adjustment of material misstatements

21. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information for objective 5: to provide and maintain bulk and service infrastructure that will address backlogs and provide for future development. As management subsequently corrected the misstatements, I did not identify material findings on the usefulness and reliability of the reported performance information.

Unaudited supplementary information

22. The supplementary information set out on pages 1 to 10, 12 to 14, 17 and 24 to 33 does not form part of the annual performance report and is presented as additional information. I have not audited these schedules and, accordingly, I do not report thereon.

# **Compliance with legislation**

23. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other related matters. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

# Internal control

24. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. I did not identify any significant deficiencies in internal control.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1. ACCOUNTING PRINCIPLES AND POLICIES APPLIED IN THE FINANCIAL STATEMENTS

#### 1.1. BASIS OF PREPARATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The annual financial statements have been prepared in accordance with the Finance Management Act (MFMA) and effective Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – March 2012) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

A summary of the significant accounting policies, which have been consistently applied except where an exemption or transitional provision has been granted, are disclosed below.

Assets, liabilities, revenue and expenses have not been offset except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant notes to the Financial Statements.

In terms of Directive 7: "The Application of Deemed Cost on the Adoption of Standards of GRAP" issued by the Accounting Standards Board, the Municipality applied deemed cost to Property, Plant and Equipment, Investment Property and Intangible Assets where the acquisition cost of an asset could not be determined.

#### **1.2. PRESENTATION CURRENCY**

Amounts reflected in the financial statements are in South African Rand and at actual values. Financial values are rounded to the nearest one Rand. No foreign exchange transactions are included in the statements.

#### **1.3. GOING CONCERN ASSUMPTION**

These annual financial statements have been prepared on a going concern basis.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

#### **1.4. COMPARATIVE INFORMATION**

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

#### **1.5. AMENDED DISCLOSURE POLICY**

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements. The principal amendments to matters disclosed in the current financial statements include errors.

#### **1.6. MATERIALITY**

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

## **1.7. PRESENTATION OF BUDGET INFORMATION**

The presentation of budget information is prepared in accordance with GRAP 24 and guidelines issued by National Treasury. The comparison of budget and actual amounts are disclosed as separate additional financial statements, namely Statements of comparison of budget and actual amounts.

Budget information is presented on the accrual basis and is based on the same period as the actual amounts. The budget information is therefore on a comparable basis to the actual amounts.

The comparable information includes the following:

- the approved and final budget amounts;
- actual amounts and final budget amounts;

Explanations for material differences between the final budget amounts and actual amounts are included the Notes to the Financial Statements.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.8. STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following original GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

REFERENCE	ΤΟΡΙΟ	EFFECTIVE DATE
GRAP 18 (Feb 2011)	Segment ReportingThe objective of this Standard is to establish principles for reporting financial information by segments.No significant impact is expected as information to a large extent is already included in the appendixes to the financial statements	Unknown
GRAP 20 (Jun 2011)	<ul> <li>which do not form part of the audited financial statements.</li> <li>Related Party Disclosure</li> <li>The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.</li> <li>The Municipality resolved to adopt the disclosure requirements as per GRAP 20. The information is therefore included in the financial statements.</li> </ul>	Unknown
GRAP 32 (Aug 2013)	Service Concession Arrangements: Grantor The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public entity. No significant impact expected as any such transactions or events are expected in the foreseeable future.	Unknown
GRAP 108 (Sept 2013)	<u>Statutory Receivables</u> The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables. The Municipality has revolved to adopt the principles as set out in GRAP 108 to formulate its own accounting policy.	Unknown
GRAP 109 (July 2015)	Accounting by Principles and Agents The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement. No significant impact is expected as the Municipality's current treatment is already in line with the Standards treatment.	Unknown

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

REFERENCE	ТОРІС	EFFECTIVE DATE
IGRAP 17 (Aug 2013)	Service Concession Arrangements where a grantor controls a significant residual interest in an Asset	Unknown
	The Interpretation of the Standards is to provide guidance to the grantor where it has entered into a service concession arrangement, but only controls, through a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease. No such transactions or events are expected in the foreseeable future.	

The above-mentioned standards and interpretations will not have a significant impact on the Municipality once implemented.

The following revised GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

REFERENCE	ΤΟΡΙϹ	EFFECTIVE DATE
GRAP 1 (May 2015)	Presentation of Financial Statements	1 April 2016
GRAP 16 (May 2015)	Investment Property	1 April 2016
GRAP 17 (May 2015)	Property, Plant and Equipment	1 April 2016
GRAP 31 (May 2015)	Intangible Assets	1 April 2016
GRAP 103 (May 2015)	Heritage Assets	1 April 2016

When the above-mentioned amended Standards of GRAP become effective, the effect will be insignificant. The amendments to the Standards of GRAP will mainly relate to additional disclosure requirements, the removal of encouraged disclosures and the clarification of accounting principles.

The Municipality further resolved not to early adopt Directive 12 - "The Selection of an Appropriate Reporting Framework by Public Entities" (effective 1 April 2018) as this Directive is not applicable to municipalities and will have no impact on the Municipality once it becomes effective.

## **1.9. HOUSING DEVELOPMENT FUND**

The Housing Development Fund was established in terms of the Housing Act, (Act No 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the Municipality were extinguished on 1 April 1998 and transferred to a Housing Development Fund.

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Housing selling schemes both complete and in progress as at 1 April 1998 were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sales of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

#### 1.10. RESERVES

#### 1.10.1. Capital Replacement Reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, funds are transferred from the accumulated surplus / (deficit) to the CRR. The cash funds in the CRR can only be utilized for the purpose of purchasing/ construction of items of property, plant and equipment and may not be used for the maintenance of these items. The CRR is reduced and the accumulated surplus / (Deficit) are credited by a corresponding amount when the amounts in the CRR are utilized.

## 1.11. LEASES

#### 1.11.1. Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the Municipality. Property, plant and equipment or intangible assets (excluding licensing agreements for such items as motion picture films, video recordings, plays, manuscripts, patents and copyrights) subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the Municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant and equipment, investment property or intangibles assets. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to de-recognition of financial instruments are applied to lease payables.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined expenses and actual payments made will give rise to a liability. The Municipality recognises the aggregate benefit of incentives as a reduction of rental expense over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

#### 1.11.2. Municipality as Lessor

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined revenue and actual payments received will give rise to an asset. The Municipality shall recognise the aggregate cost of incentives as a reduction of rental revenue over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern over which the benefit of the leases asset is diminished.

## 1.12. BORROWING COST

The Municipality recognises all borrowing costs as an expense in the period in which they are incurred.

#### 1.13. UNSPENT CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Conditional government grants are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent conditional grants are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent government grants, subsidies and contributions from the public.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent conditional grants are recognised as a liability when the grant is received.
- When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested until it is utilised.
- Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

## 1.14. UNPAID CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Unpaid conditional grants are assets in terms of the Framework that are separately disclosed in the Statement of Financial Position. The asset is recognised when the Municipality has an enforceable right to receive the grant or if it is virtually certain that it will be received based on that grant conditions have been met. They represent unpaid government grants, subsidies and contributions from public.

The following provisions are set for the creation and utilisation of grant receivables:

• Unpaid conditional grants are recognised as an asset when the grant is receivable.

## 1.15. UNSPENT PUBLIC CONTRIBUTIONS

Public contributions are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent public contributions are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent contributions from the public.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent public contributions are recognised as a liability when the grant is received.
- When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested as individual investment or part of the general investments of the municipality until it is utilised.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

• Interest earned on the investment is treated in accordance with the public contribution conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

#### 1.16. PROVISIONS

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where an inflow of economic benefits or service potential is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The municipality has a detailed formal plan for the restructuring identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

The amount recognised as a provision shall be the best estimate of the expenditure required to settle the present obligation at the reporting date.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

#### 1.17. EMPLOYEE BENEFITS

#### (a) Post-Retirement Medical Obligations

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 70% as contribution and the remaining 30% are paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined in accordance with GRAP 25 – Employee benefits (using a discount rate applicable to high quality government bonds). The plan is unfunded.

These contributions are charged to the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically by independent qualified actuaries.

#### (b) Long Service Awards

Long service awards are provided to employees who achieve certain predetermined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries periodically and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are charged against the Statement of Financial Performance as employee benefits upon valuation. Defined benefit plans are postemployment plans other than defined contribution plans.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically by independent qualified actuaries.

#### (c) Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year end and also on the total remuneration package of the employee.

Accumulated leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term.

Accumulated leave is vesting.

#### (d) Staff Bonuses

Liabilities for staff bonuses are recognised as they accrue to employees. The liability at year end is based on bonus accrued at year end for each employee.

#### (e) Other Short-term Employee Benefits

When an employee has rendered service to the entity during a reporting period, the entity recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the entity recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

#### 1.18. PROPERTY, PLANT AND EQUIPMENT

#### 1.18.1. Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the entity, and the cost or fair value of the item can be measured reliably. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the assets acquired is initially measure at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

#### 1.18.2. Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

#### 1.18.3. Depreciation and Impairment

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated useful lives:

	Years		Years
Infrastructure		<u>Other</u>	
Roads, pavements and bridges	5-50	Buildings	5-50
Storm Water	5-50	Specialist vehicles	2-10
Electricity	5-50	Other vehicles	2-10
Water	3-100	Office equipment	5-30
Sanitation	5-100	Furniture and fittings	5-30
Waste Management	3-50	Watercraft	15
Community		Other (Continue)	_
Sports fields and Stadia	5-30	Bins and containers	5
Housing	20-30	Specialised plant and	
Security	5	Equipment	5-30
Halls	20-30	Other plant and	
Libraries	20-30	Equipment	2-5
Parks and gardens	20-30	Emergency equipment	10
Other assets	15-20	Computer equipment	3
Finance lease assets			
Office equipment	3		
Other assets	5		
	2		
Cell phones	2		

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the Statement of Financial Performance.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

#### 1.18.4. De-recognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

# 1.18.5. Land and Buildings and Other Assets – application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Land and Buildings the fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2007. For Other Assets the depreciation cost method was used to establish the deemed cost as on 1 July 2007.

## 1.19. INTANGIBLE ASSETS

#### 1.19.1. Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

An asset meets the identifiability criterion in the definition of an intangible asset when it:

- is separable, i.e. is capable of being separated or divided from the entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, asset or liability; or
- arises from contractual rights (including rights arising from binding arrangements) or other legal rights (excluding rights granted by statute), regardless of whether those rights are transferable or separable from the entity or from other rights and obligations.

The Municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project;
- it is probable that the municipality will receive future economic benefits or service potential; and
- the Municipality can measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

#### 1.19.2. Subsequent Measurement – Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and accumulated impairment losses. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

#### 1.19.3. Amortisation and Impairment

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. Amortisation of an asset begins when it is available for use, i.e. when it is in the condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are amortised separately. The estimated useful lives, residual values and amortisation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual amortisation rates are based on the following estimated useful lives:

Intangible Assets	Years	
Computer Software	5	
Computer Software Licenses	5	

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Intangible assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the Statement of Financial Performance.

#### 1.19.4. De-recognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

#### 1.19.5. Application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Intangible Assets the depreciation cost method was used to establish the deemed cost as on 1 July 2007.

#### **1.20. INVESTMENT PROPERTY**

#### 1.20.1. Initial Recognition

Investment property shall be recognised as an asset when and only when:

- it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the entity, and
- the cost or fair value of the investment property can be measured reliably.

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use is also classified as investment property.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

At initial recognition, the Municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is measured at cost.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Municipality accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

#### 1.20.2. Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

#### 1.20.3. Depreciation and Impairment – Cost Model

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

#### Investment Property Years Buildings 30

Investment property are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of impairment is recognised in the Statement of Financial Performance.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

#### 1.20.4. De-recognition

Investment property is derecognised when it is disposed or when there are no further economic benefits expected from the use of the investment property. The gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

#### 1.20.5. Application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2007.

#### 1.21. HERITAGE ASSETS

#### 1.21.1. Initial Recognition

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

A heritage asset is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the asset will flow to the Municipality, and the cost or fair value of the asset can be measured reliably.

A heritage asset that qualifies for recognition as an asset is measured at its cost. Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

#### 1.21.2. Subsequent Measurement – Cost Model

After recognition as an asset, heritage assets are carried at its cost less any accumulated impairment losses.

#### 1.21.3. Depreciation and Impairment

Heritage assets are not depreciated.

Heritage assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

#### 1.21.4. De-recognition

Heritage assets are derecognised when it is disposed or when there are no further economic benefits expected from the use of the heritage asset. The gain or loss arising on the disposal or retirement of a heritage asset is determined as the difference between the sales proceeds and the carrying value of the heritage asset and is recognised in the Statement of Financial Performance.

#### **1.21.5.** Application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2011.

#### **1.22. IMPAIRMENT OF NON-FINANCIAL ASSETS**

#### 1.22.1. Cash generating assets

Cash-generating assets are assets held with the primary objective of generating a commercial return.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the municipality estimates the asset's recoverable amount.

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

- (a) External sources of information
  - During the period, an asset's market value has declined significantly more than would be expected as a result of the passage of time or normal use;
  - Significant changes with an adverse effect on the Municipality have taken place during the period, or will take place in the near future, in the technological, market, economic or legal environment in which the Municipality operates or in the market to which an asset is dedicated;

## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

- Market interest rates or other market rates of return on investments have increased during the period, and those increases are likely to affect the discount rate used in calculating an asset's value in use and decrease the asset's recoverable amount materially.
- (b) Internal sources of information
  - Evidence is available of obsolescence or physical damage of an asset;
  - Significant changes with an adverse effect on the Municipality have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, plans to dispose of an asset before the previously expected date, and reassessing the useful life of an asset as finite rather than indefinite;
  - Evidence is available from internal reporting that indicates that the economic performance of an asset is, or will be, worse than expected.

The re-designation of assets from a cash-generating asset to a non-cash generating asset or from a non-cash-generating asset to a cash-generating asset shall only occur when there is clear evidence that such a re-designation is appropriate. A re-designation, by itself, does not necessarily trigger an impairment test or a reversal of an impairment loss. Instead, the indication for an impairment test or a reversal of an impairment loss arises from, as a minimum, the indications listed above.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. Impairment losses are recognised in the Statement of Financial Performance in those expense categories consistent with the function of the impaired asset.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Municipality estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Financial Performance.

#### 1.22.2. Non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable service amount.

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

- (a) External sources of information
  - Cessation, or near cessation, of the demand or need for services provided by the asset;
  - Significant long-term changes with an adverse effect on the Municipality have taken place during the period or will take place in the near future, in the technological, legal or government policy environment in which the Municipality operates.
- (b) Internal sources of information
  - Evidence is available of physical damage of an asset;
  - Significant long-term changes with an adverse effect on the Municipality have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, or plans to dispose of an asset before the previously expected date;
  - A decision to halt the construction of the asset before it is complete or in a usable condition;
  - Evidence is available from internal reporting that indicates that the service performance of an asset is, or will be, significantly worse than expected.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

An asset's recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use. If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss recorded in the Statement of Financial Performance.

The value in use of a non-cash-generating asset is the present value of the asset's remaining service potential. The present value of the remaining service potential of the asset is determined using any one of the following approaches:

- depreciation replacement cost approach the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.
- restoration cost approach the cost of restoring the service potential of an asset to its pre-impaired level. Under this approach, the present value of the remaining service potential of the asset is determined by subtracting the estimated restoration cost of the asset from the current cost of replacing the remaining service potential of the asset before impairment. The latter cost is usually determined as the depreciated reproduction or replacement cost of the asset, whichever is lower.
- service unit approach the present value of the remaining service potential of the asset is determined by reducing the current cost of the remaining service potential of the asset before impairment, to conform to the reduced number of service units expected from the asset in its impaired state. As in the restoration cost approach, the current cost of replacing the remaining service potential of the asset before impairment is usually determined as the depreciated reproduction or replacement cost of the asset before impairment, whichever is lower.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

An impairment loss is recognised immediately in surplus or deficit, unless the asset is carried at a revalued amount in accordance with another Standard of GRAP. Any impairment loss of a revalued asset shall be treated as a revaluation decrease in accordance with that Standard of GRAP.
### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, the Municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for an asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. If this is the case, the carrying amount of the asset is increased to its recoverable service amount. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods. Such a reversal of an impairment loss is recognised in the Statement of Financial Performance.

### 1.23. INVENTORIES

### 1.23.1. Initial Recognition

Inventories comprise of current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

### 1.23.2. Subsequent Measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

In general, the basis of allocating cost to inventory items is the weighted average method.

Water inventory is measured annually at the reporting date by way of telemetry readings and the calculated volume in the distribution network.

# **1.24. FINANCIAL INSTRUMENTS**

Financial instruments recognised on the Statement of Financial Position include receivables (both from exchange transactions and non-exchange transactions), cash and cash equivalents, annuity loans and payables (both from exchange and non-exchange transactions). The future utilization of Unspent Conditional Grants is evaluated in order to determine whether it is treated as financial instruments.

### 1.24.1. Initial Recognition

Financial instruments are initially recognised when the Municipality becomes a party to the contractual provisions of the instrument at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

### 1.24.2. Subsequent Measurement

Financial Assets are categorised according to their nature as either financial assets at fair value, financial assets at amortised cost or financial assets at cost. Financial Liabilities are categorised as either at fair value, financial liabilities at cost or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation.

### 1.24.2.1. Receivables

Receivables are classified as financial assets at amortised cost, and are subsequently measured amortised cost using the effective interest rate method.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

For amounts due from debtors carried at amortised cost, the Municipality first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. Objective evidence of impairment includes significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue). If the Municipality determines that no objective evidence of impairment exists for an individually assessed financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Statement of Financial Performance. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the municipality. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognised in the Statement of Financial Performance.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate, if material. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

### 1.24.2.2. Payables and Annuity Loans

Financial liabilities consist of trade and other payables and annuity loans. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.24.2.3. Cash and Cash Equivalents

Cash includes cash on hand (including petty cash) and cash with banks. Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, highly liquid deposits and net of bank overdrafts. The Municipality categorises cash and cash equivalents as financial assets carried at amortised cost.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

# 1.24.3. De-recognition

### 1.24.3.1. Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Municipality has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Municipality has transferred substantially all the risks and rewards of the asset, or (b) the Municipality has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Municipality has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the old asset is derecognised and a new asset is recognised to the extent of the Municipality's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Municipality could be required to repay.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the Municipality's continuing involvement is the amount of the transferred asset that the Municipality may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Municipality's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

### 1.24.3.2. Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Financial Performance.

### 1.24.4. Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### **1.25. STATUTORY RECEIVABLES**

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

### 1.25.1. Initial Recognition

Statutory receivables are recognised when the related revenue is recognised or when the receivable meets the definition of an asset.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.25.2. Subsequent Measurement

The Municipality initially measures the statutory receivables at their transaction amount. The Municipality measure statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to reflect any:

- (a) interest or other charges that may have accrued on the receivable;
- (b) impairment losses; and
- (c) amounts derecognised.

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired. If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

# 1.25.3. Derecognition

The Municipality derecognises a statutory receivable when:

- the rights to the cash flows from the receivable are settled, expire or are waived;
- (b) the Municipality transfers to another party substantially all of the risks and rewards of ownership of the receivable; or
- (c) the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the Municipality:
  - i. derecognise the receivable; and
  - ii. recognise separately any rights and obligations created or retained in the transfer.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.26. REVENUE

### 1.26.1. Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. At the time of initial recognition the full amount of revenue is recognised. If the Municipality does not enforce its obligation to collect the revenue, this would be considered as a subsequent event. Collection charges are recognised when such amounts are legally enforceable. Rebates and discounts are offset against the related revenue, in terms of IGRAP 1, as there is no intention of collecting this revenue.

Fine Revenue constitutes both spot fines and summonses. Fine revenue is recognised when the spot fine or summons is issued. In cases where fines and summonses are issued by another government institute, revenue will only be recognised by the Municipality when the receivable meets the definition of an asset.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the Municipality. Where public contributions have been received but the Municipality has not met the related conditions, it is recognised as an unspent public contribution (liability).

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by the law.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

Revenue shall be measured at the fair value of the consideration received or receivable.

When, as a result of a non-exchange transaction, a Municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the present obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability will be recognised as revenue.

Services in-kind include services provided by individuals to the Municipality at no charge or where the Municipality has the right to use assets at no charge. The Municipality's recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Municipality and the fair value of the assets can be measured reliably. When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition. If the services in-kind are not significant to the Municipality's operations or does not satisfy the criteria for recognition, the Municipality only disclose the nature and type of services in-kind received during the reporting period.

### **1.26.2.** Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality;
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

At the time of initial recognition the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the individual collectability is considered to be improbable. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

Service charges relating to electricity and water are based on consumption and a basic charge as per Council resolution. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. It is estimated that pre-paid electricity is consumed within 5 to 7 days after date of purchase. The pre-paid electricity sold, but not consumed yet at year-end is disclosed as under Payables from Exchange Transactions in the Statement of Financial Position.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse points per property.

Service charges relating to sanitation (sewerage) are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage. In the case of residential property a fixed monthly tariff is levied and in the case of commercial property a tariff is levied based on the number of sewerage connection on the property. Service charges based on a basic charge as per Council resolution.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Interest revenue is recognised using the effective interest rate method.

Revenue from the rental of facilities and equipment is recognised on a straightline basis over the term of the lease agreement.

Dividends are recognised on the date that the Municipality becomes entitled to receive the dividend.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

Revenue shall be measured at the fair value of the consideration received or receivable.

The amount of revenue arising on a transaction is usually determined by agreement between the entity and the purchaser or user of the asset or service. It is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the entity.

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

- The prevailing rate for a similar instrument of an issuer with a similar credit rating; or
- A rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

When goods or services are exchanged or swapped for goods or services which are of a similar nature and value, the exchange is not regarded as a transaction that generates revenue. When goods are sold or services are rendered in exchange for dissimilar goods or services, the exchange is regarded as a transaction that generates revenue. The revenue is measured at the fair value of the goods or services received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the goods or services received cannot be measured reliably, the revenue is measured at the fair value of the goods or services given up, adjusted by the amount of any cash or cash equivalents transferred.

### **1.27. RELATED PARTIES**

The Municipality resolved to adopt the disclosure requirements as per GRAP 20 – "Related Party Disclosures".

A related party is a person or an entity:

- with the ability to control or jointly control the other party,
- or exercise significant influence over the other party, or vice versa,
- or an entity that is subject to common control, or joint control.

The following are regarded as related parties of the Municipality:

- (a) A person or a close member of that person's family is related to the Municipality if that person:
  - has control or joint control over the Municipality.
  - has significant influence over the Municipalities. Significant influence is the power to participate in the financial and operating policy decisions of the Municipality.
  - is a member of the management of the Municipality or its controlling entity.
- (b) An entity is related to the Municipality if any of the following conditions apply:
  - the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others).
  - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member).
  - both entities are joint ventures of the same third party.
  - one entity is a joint venture of a third entity and the other entity is an associate of the third entity.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

- the entity is a post-employment benefit plan for the benefit of employees of either the Municipality or an entity related to the Municipality. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity.
- the entity is controlled or jointly controlled by a person identified in (a).
- a person identified in (a) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the Municipality. A person is considered to be a close member of the family of another person if they:

- (a) are married or live together in a relationship similar to a marriage; or
- (b) are separated by no more than two degrees of natural or legal consanguinity or affinity.

Management (formerly known as "Key Management") includes all persons having the authority and responsibility for planning, directing and controlling the activities of the Municipality, including:

- (a) all members of the governing body of the Municipality;
- (b) a member of the governing body of an economic entity who has the authority and responsibility for planning, directing and controlling the activities of the Municipality;
- (c) any key advisors of a member, or sub-committees, of the governing body who has the authority and responsibility for planning, directing and controlling the activities of the Municipality; and
- (d) the senior management team of the Municipality, including the chief executive officer or permanent head of the Municipality, unless already included in (a).

Management personnel include:

- (a) All directors or members of the governing body of the Municipality, being the Executive Mayor, Deputy Mayor, Speaker and members of the Mayoral Committee;
- (b) Other persons having the authority and responsibility for planning, directing and controlling the activities of the reporting Municipality being the Municipal Manager, Chief Financial Officer an all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms are disclosed.

# 1.28. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

### 1.29. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

# **1.30. FRUITLESS AND WASTEFUL EXPENDITURE**

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.31. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measures with sufficient reliability.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

Management judgement is required when recognising and measuring contingent liabilities.

# **1.32. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES**

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

### Post-retirement medical obligations and Long service

The cost of post-retirement medical obligations and long service are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Major assumptions used are disclosed in note 5 of the Annual Financial Statements. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

### Impairment of Receivables

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# Property, Plant and Equipment

The useful lives of property, plant and equipment are based on management's estimation. Infrastructure's useful lives are based on technical estimates of the practical useful lives for the different infrastructure types, given engineering technical knowledge of the infrastructure types and service requirements. For other assets and buildings management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and residual values of Property, Plant and Equipment:

- The useful life of movable assets was determined using the age of similar assets available for sale in the active market. Discussions with people within the specific industry were also held to determine useful lives.
- Local Government Industry Guides was used to assist with the deemed cost and useful life of infrastructure assets.
- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings. The Municipality also consulted with engineers to support the useful life of buildings, with specific reference to the structural design of buildings.

For deemed cost applied to other assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

The cost for depreciated replacement cost was determined by using either one of the following:

- Cost of items with a similar nature currently in the Municipality's asset register;
- Cost of items with a similar nature in other municipalities' asset registers, given that the other municipality has the same geographical setting as the Municipality and that the other municipality's asset register is considered to be accurate;
- Cost as supplied by suppliers.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

### Intangible Assets

The useful lives of intangible assets are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

Reference was made to intangibles used within the Municipality and other municipalities to determine the useful life of the assets.

For deemed cost applied to intangible assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

### Investment Property

The useful lives of investment property are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their economic lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and valuation of investment property:

- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings.
- The Municipality also consulted with professional engineers and qualified valuators to support the useful life of buildings.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

### **Provisions and Contingent Liabilities**

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

### Provision for Landfill Sites

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value of the expected future cash flows to rehabilitate the landfill site at year end. To the extent that the obligations relate to an asset, it is capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset is charged to the Statement of Financial Performance.

Management referred to the following when making assumptions regarding provisions:

- Professional engineers were utilised to determine the cost of rehabilitation of landfill sites as well as the remaining useful life of each specific landfill site.
- Interest rates (investment rate) linked to prime was used to calculate the effect of time value of money.

# Pre-paid electricity estimation

Pre-paid electricity is only recognised as income once the electricity is consumed. The pre-paid electricity balance (included under payables) represents the best estimate of electricity sold at year end, which is still unused. The average pre-paid electricity sold per day during the year under review is used and the estimate is calculated using between 5 and 7 days' worth of unused electricity.

### Componentisation of Infrastructure assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

### Revenue Recognition

Accounting Policy 1.26.1 on Revenue from Non-Exchange Transactions and Accounting Policy 1.26.2 on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from Non-Exchange Transactions. Specifically, whether the Municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services are rendered, whether the service has been performed.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2016

# 1.33. TAXES – VALUE ADDED TAX

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value added tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

# **1.34. CAPITAL COMMITMENTS**

Capital commitments disclosed in the financial statements represents the balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

# **1.35. EVENTS AFTER REPORTING DATE**

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those are indicative of conditions that arose after the reporting date (nonadjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

2	NET ASSET RESERVES	2016 R	2015 R
	RESERVES	15 735 074	12 724 037

5.1	Provision for Post Retirement Health Care Benefits			
	The Post Retirement Health Care Benefit Plan is a defined benefit plan, of which the memb follows:	pers are made up as		
	In-service (employee) members		171	169
	In-service (employee) non-members Continuation members (e.g. Retirees, widows, orphans)		205 28	212 28
	Total Members	-	404	409
		_	2016	2015
	The liability in respect of past service has been estimated to be as follows:		R	R
			40.070.000	47.057.000
	In-service members In-service non-members		19 070 202 4 091 768	17 257 080 3 886 021
	Continuation members	_	15 424 752	12 678 134
	Total Liability	=	38 586 722	33 821 235
	The liability in respect of periods commencing prior to the comparative year has been estimated as follows:			
		2014 R	2013 R	2012 R
	In-service members	15 045 458	10 732 043	8 879 531.00
	In-service non-members Continuation members	3 250 734 11 543 941	2 383 705	1 972 242.00
	=		10 524 477	9 516 055.00
	Total Liability	29 840 133	23 640 225	20 367 828.00
	The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:			
	Bonitas			
	Hosmed LA Health			
	Key Health, and			
	SAMWU Medical Aid			
	The Current-service Cost for the ensuing year is estimated to be R2 059 765, whereas the Interest Cost for the next year is estimated to be R3 477 061.			
	Key actuarial assumptions used:		2016 %	2015 %
			78	76
	i) Rate of interest			
	Discount rate Health Care Cost Inflation Rate		9.14%	9.06%
	Net Effective Discount Rate		8.22% 0.85%	8.12% 0.87%
	ii) Actuarial Valuation Method			
	The Projected Unit Credit Method has been used to value the liability.			

### iii) Mortality rates

The PA 90 ultimate table, rated down by 1 year of age was used by the actuaries.

### iv) Normal retirement age

The normal retirement age for employees of the municipality is 63 years.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

Reconciliation of Provision for Debt Impairment	2016 R	2015 R
Balance at beginning of year Contribution to provision Bad Debts written off against provision	3 994 600 3 579 522 (2 210 963)	5 694 237 2 552 078 (4 251 715)
Balance at end of year	5 363 159	3 994 600
The total amount of the provision consist of:		
Services Other Debtors	5 166 276 196 883	3 532 880 461 720
Total Provision for Debt Impairment on Receivables from exchange transactions	5 363 159	3 994 600
Ageing of amounts past due but not impaired:		
1 month past due 2+ months past due	2 776 067 23 972 315	3 734 983 26 082 338
	26 748 382	29 817 321

The provision for doubtful debts on debtors (loans and receivables) exists due to the possibility that not all debts will be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position date as financial assets with similar credit risk characteristics and collectively assessed for impairment.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

### 18 RECEIVABLES FROM NON-EXCHANGE TRANSACTIONS

Taxes - Rates Fines Other Receivables	29 741 293 13 319 615 3 451 464	28 488 553 7 518 640 3 027 131

Taxes Fines	5 743 509 12 631 286	7 842 676 6 439 336
Total Provision for Debt Impairment on Trade Receivables from non-exchange transactions	18 374 795	14 282 012

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

Ageing of amounts past due but not impaired:	2016 R	2015 R
1 month past due 2+ months past due	3 478 568 14 198 449	2 185 249 14 471 422
	17 677 017	16 656 671

The provision for doubtful debts on debtors (loans and receivables) exists due to the possibility that not all debts will be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position date as financial assets with similar credit risk characteristics and collectively assessed for impairment.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

The outstanding fine receivable balance at year end is reduced to its recoverable amount by recognising a provision for impairment against the receivable raised. This is considered to be a subsequent event. The provision for impairment is based on current and past collection rates applicable to fines.

### 19 OPERATING LEASE ARRANGEMENTS

### 19.1 The Municipality as Lessor

i ne municipality as Lessor		
Operating Lease Asset	75 601	81 069
Reconciliation		
Balance at the beginning of the year Movement during the year	81 069 (5 468)	79 199 1 870
Balance at the end of the year	75 601	81 069
At the Statement of Financial Position date, where the municipality acts as a lessor under operating l future minimum lease payments receivable are as follows:	eases, the	

Up to 1 Year	682 989	240 256

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

21	PROPERTY RATES	2016 R	2015 R
	Antural		
	Actual		
	Rateable Land and Buildings	55 861 163	52 225 636
	Less: Rebates	(3 352 716)	(3 017 590)
	Total Assessment Rates	52 508 447	49 208 046
	Valuations - 1 July 2015		
	Rateable Land and Buildings	8 227 313 200	8 174 200 200
	Residential Property	3 923 437 000	3 903 616 000
	Commercial Property	571 468 000	569 828 000
	Industrial Property	235 186 000	235 186 000
	Public Benefits Organisations	239 372 000	207 822 000
	Agricultural Purposes	3 174 604 200	3 173 904 200
	State - National/ Provincial Services	4 670 000	4 670 000
	Municipal Property	78 576 000	79 174 000
	Total Assessment Rates	8 227 313 200	8 174 200 200

Assessment Rates are levied on the value of land and improvements, which valuation is performed every 4 years. The last valuation came into effect on 1 July 2013. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions and also to accommodate growth in the rate base due mostly to private development.

### Basic Rate

Residential	0.974c/R	0.919c/R
Commercial/Industrial	1.072c/R	1.011c/R
Agricultural	0.244c/R	0.230c/R

Rates are levied annually and monthly. Monthly rates are payable by the 25th of the following month and annual rates are payable before 30 September. Interest is levied at the prime rate plus 1% on outstanding monthly instalments.

Rebates were granted on land with buildings used solely for dwellings purposes as follows:

Residential - R5 000 on the valuation is exempted.

Rebates can be defined as any income that the Municipality is entitled by law to levy, but which has subsequently been forgone by way of rebate or remission.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

		2016 R	2015 R
37	GAIN/(LOSS) ON SALE OF ASSETS		
	Proceeds from disposal Carrying value of Property, Plant and Equipment	105 263 (36 715)	- (84 595)
	Total Gain/ (Loss) on Sale of Assets	68 548	(84 595)
			2015
38	CORRECTION OF ERROR IN TERMS OF GRAP 3		R
	The following adjustments were made to amounts previously reported in the annual financial statements of the Municipality arising from the implementation of GRAP:		
38.1	Long-Term Liabilities		
	Some of the annuity loan's outstanding balances as on year-end did not agree to the bank confirmation received from the respective banking institutions. The reason for the variances were due to additional loans taken up in the past not allocated to the loan account.		
	The net effect of the above-mentioned errors were as follow:		
	- Long-term Liabilities - note 3	Understated	344 966
	- Accumulated Surplus - note 38.5	Overstated	(344 966)
38.2	Payables from exchange transactions		
	As per the accounting policy, all unclaimed unknown receipts are recognised as income after a period of 36 month. During 2014/15 the municipality neglected to recognise the unclaimed unknown receipts pertaining to 2011/12.		
	The net effect of the above-mentioned errors were as follow:		
	- Payables from exchange transactions - note 8	Overstated	(251 734)
	- Other Income - note 28	Understated	251 734
38.3	Taxes		
	The VAT portion pertaining to the Provision for Debt Impairment was incorrectly calculated in the prior year. The VAT portion was calculated based on the contribution for the year, but should have been calculated on the portion pertaining to the closing balance order to take into account any write-offs.		
	The net effect of the above-mentioned errors were as follow:		
	- Taxes - note 10	Overstated	(881 044)
	- Debt Impairment - note 31	Understated	420 978
	- Accumulated Surplus - note 38.5	Overstated	(460 066)
38.4	Receivables from Exchange Transactions		
	It was noted that internal charges raised are only being cleared in the following month, therefore receivables as on 30 June are being overstated by internal charges.		
	The net effect of the above-mentioned errors were as follow:		
	- Receivables from exchange transactions - note 17	Overstated	(514 446)
	Service Charges - note 24     Accumulated Surplus - note 38.5	Overstated Overstated	(127 171) (387 275)
38.5	Receivables from non-exchange transactions		
	Expenditure and discount pertaining to 2014/15 was incorrectly recognised as a prepaid expense in the Statement of Financial Position, rather than being recognised in the Statement of Financial Performance.		
	The net effect of the above-mentioned errors were as follow:		
	- Payables from exchange transactions - note 8	Overstated	(50 486)
	Receivables from non-exchange transactions - note 18     General Expenses note 36	Overstated Understated	(290 297) 239 811
		Understated	233 011

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

20.0	Assumulated Combus		2015 R
38.6	Accumulated Surplus		(0.1.1.0.00)
	Long-term Liabilities - note 38.1 Taxes - note 38.3 Receivables from Exchange Transactions - note 38.3		(344 966) (460 066) (387 375)
	Total		(387 275)
	i udi		(1 132 300)
38.7	Misallocation in Statement of Financial Performance		
	The Accounting Standards Board (ASB) issued a guideline for to the treatment of free basic services relating to indigents. The guideline states that no revenue should be raised and the expenditure relating to the indigent support should still be disclosed as per the nature of the expenditure. However, the Municipality incorrectly reallocated water and electricity expenditure relating to indigent support from Bulk Purchases to Grants and Subsidies Paid.		
	The net effect of the above-mentioned errors were as follow:		
	- Bulk Purchases - note 34	Understated	1 651 818
	- Grants and Subsidies Paid - note 35	Overstated	(1 651 818)

	Cash invested to finance property, plant and equipment from borrowings	896 699	-

Long-term liabilities have been utilized in accordance with the Municipal Finance Management Act.

### 43 BUDGET INFORMATION

#### 43.1 Explanation of variances between approved and final budget amounts

The reasons for the variances between the approved and final budgets are mainly due to virements, and the negative effect of the abnormal high electricity and solid waste tariff increases on consumer debtors, the decrease in the capital expenditure, and the reprioritising of capital projects, with the corresponding changes to funding sources.

### 43.2 Explanation of material variances: Final Budget and Actual Amounts

Material variances are considered to be any variance greater than R2 500 000.

### Statement of Financial Position

### 43.2.1 Current Assets

Cash

The Cash available at year-end was more than anticipated due to most Call Investment Deposits which matured during June 2016.

### Call Investment Deposits

The Call Investment Deposits were less than anticipated due to most Call Investment Deposits which matured during June 2016.

### Consumer Debtors

Consumer Debtors were less than budgeted for due to higher collections than anticpated and the reversal of internal charges.

### 43.2.2 Non-Current Assets

There were not material variances on Non-Current Assets.

#### 43.2.3 Current Liabilities

Borrowing

The short-term portion was not budgeted for.

#### Trade and Other Payables

Incorrect assumptions were used when budgeted for trade and other payables.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

#### 43.2.4 Non-Current Liabilities

#### Borrowing

The short-term portion was not budgeted for and therefore included in the non-current portion.

#### 43.2.5 Net Assets

### Accumulated Surplus/(Deficit)

Net result of all variances relating to the Statement of Financial Performance as well as the correction of prior year errors.

### Statement of Financial Performance

#### 43.2.6 Revenue

#### Service Charges - Electricity Revenue

Electricity revenue was less than budgeted for as the budget include internal charges which are reversed at year-end in order to comply with GRAP.

#### Fines

Fines was more than budgeted for due to the appointment of a new service provider.

#### Transfers Recognised - Operational

The difference in transfers recongised is due to the funding received from the Department of Human Settlements which was included in the budget, but not included in the actual outcome. The grant received has been accounted for in terms of the agency principle as per GRAP 109.

#### 43.2.7 Expenditure

#### Debt Impairment

Debt Impairment was more than budgeted for due to the additional fines issued which was impaired.

#### Other Expenditure

Other Expenditure was less than budgeted for due to the following reason:

- Not all operating grants projects were implemented.
- Internal charges was reversed at year-end in order to comply with GRAP.
- General savings on day-to-day operations. Expenditure relating to funding received from Department of Human Settlements was included in the budget, but not included in the actual outcome. The grant received has been accounted for in terms of the agency principle as per GRAP 109.

#### **Cash Flow Statement**

### 43.2.8 Net Cash from Operating Activities

#### Service charges

Service charges were less than budged for due to the reversal of internal charges in order to comply with GRAP.

#### Government

No all grant projects were implemented and therefore not all funding received.

#### Suppliers and Employees

Actual is more than budgeted for due to incorrect assumptions used when budgeted for trade and other payables.

#### 43.2.9 Net Cash from Investing Activities

### Capital Assets

Actual is less than budgeted for due to incorrect capital expenditure amount used during budget of cash flow.

### 43.2.10 Net Cash from Financing Activities

### Repayment of Borrowing

Actual is less than budgeted for due to incorrect repayment schedule used in determining the redemption of borrowings.

#### 47 FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

### (a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

#### (b) Price Risk

The municipality is not exposed to price risk.

### (c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

The potential impact on the entity's surplus/(deficit) for the year due to changes

in interest rates were as follow:

1% (2015: 1%) Increase in interest rates 0% (2015: 1%) Decrease in interest rates

AUDITOR-GENERAL SOUTH AFRICA Auditing to build public confidence

483 300 (483 300)

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

#### (d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the Municipality to incur financial loss.

Credit risk arises mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies.

Trade and other receivables are disclosed net after provisions are made for impairment and bad debts. Trade receivables comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other receivables is considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

The credit quality of receivables are further assessed by grouping individual debtors into different categories with similar risk profiles. The categories include the following: Bad Debt, Deceased, Good payers, Slow Payers, Government Departments, Debtors with Arrangements, Indigents, Municipal Workers, Handed over to Attorneys and Untraceable account. These categories are then impaired on a group basis based on the risk profile/credit quality associated with the group.

All rates and services are payable within 30 days from invoice date. Refer to note 17 and 18 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms. Also refer to note 15 for balances included in receivables that were renegotiated for the period under review.

No receivables are pledged as security for financial liabilities.

Due to short term nature of trade and other receivables the carrying value disclosed in note 17 and 18 of the financial statements is an approximation of its fair value. Interest on overdue balances are included at prime lending rate plus 1% where applicable.

The entity only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE (ABSA Bank Limited). The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default.

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

Financial assets exposed to credit risk at year end are as follows:

Long-term Receivables	3 756 415	2 309 549
Receivables from exchange transactions	43 511 824	44 496 914
Receivables from non-exchange transactions	46 512 372	39 034 324
Cash and Cash Equivalents	65 652 069	48 329 956
	159 432 680	134 170 743

2016 R

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

### (e) Liquidity Risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

2016	Less than 1 year	Between 1 and 5 years	More than 5 years	Total
