The annual billing for rates charges takes place in July and is reflected in this report. The amounts for rates and service charges do not represent cash received but levied amounts.

Total revenue received to date was R 198,226,477.01 which represents 53.56% of the total

operating revenue budget for the year.

The following is highlighted with regards to the variances in Revenue:

**Property Rates:** A positive YTD variance of 20%, as a result of the annual billing which takes place in July. The annual assessment rates payments were due on 30 September 2020.

**Service Charges – Sanitation Revenue:** A positive YTD variance of 7%.The bulk thereof can be ascribed to the increase in septic tank removals.

**Rental of Facilities and Equipment –** A positive YTD variance of 90% which due to the annual billing of the commonage.

**Interest earned – External Investments:** A negative YTD variance of 6%. The under-performance can directly be ascribed to the reduction in interest rates which is 2.5% lower than the rate applied in the budgetary predictions, the necessary adjustment will be done after considering the mid-year financial results.

**Interest earned – outstanding debtors:** A negative YTD variance of 30% is recorded as a result of the reduction in the prime interest rate, the necessary adjustment will be done after considering the mid-year financial results. The implementation of credit control measures also have a negative impact on the interest charges on outstanding debtors.

**Fines, penalties and forfeits:** A positive YTD variance of 37% is due to Traffic Fines revenue recorded during November.

**Licences and permits:** A positive YTD variance of 38% representing approximately R9 000. A component of this revenue relates to boat licenses that may increase the remainder of the year depending on the lockdown imposed.

**Agency Services:** A positive YTD variance of 49%. The over-recovery is due to an increase in the roadworthy - and drivers licence test after lifting of some of the Lockdown restrictions, it is however less than 50% of the total budgeted revenue which is concerning and an adjustment may be necessary.

**Transfers and subsidies:** A positive YTD variance of 28% which due to the misalignment between the actual receipts and the budgetary predictions.

**Other Revenue:** A positive YTD variance of 67%. The variance is mainly due to Camping fees, Clearance certificates, Building Plan Fees, sale of land and revenue from insurance claims. Since Level 2 there has been an increase in the booking of municipal facilities for the festive period.

Please refer to table C4 for a Breakdown of Revenue by Source.

### 3.6 Conclusion

The municipality is in a position to service its current commitments yet the cash position is not yet ideal if measured against best practice norms, especially when considering the cash backing of reserves and short term provisions. Departments must put measures in place to improve revenue and accelerate spending on budgeted operational and capital expenditure. Departments must ensure that spending on the operational budget is in line with the Council's policy on cost containment measures.
