(R Maw IJN

details of evidence that must be provided to show that the indicator has been achieved, target dates and weightings which show the relative importance of key performance indicators to one another.

4.3 The Employee's performance will, in addition, be measured in terms of contributions to the goals and strategies set out in the Employer's Integrated Development Plan.

5. PERFORMANCE MANAGEMENT SYSTEM

- 5.1 The Employee agrees to participate in the performance management system that the Employer adopts or introduces for the Employer, management, and municipal staff of the Employer.
- 5.2 The Employee accepts that the purpose of the performance management system will be to provide a comprehensive system with specific performance standards to assist the Employer, management, and municipal staff to perform to the standards required.

- 5.5 The criteria upon which the performance of the Employee shall be assessed shall consist of two components, both of which are contained in this Performance Agreement.
 - 5.5.1 The Employee must be assessed against both components, with a weighting of 80:20 allocated to the Key Performance Areas (KPA's) and Competencies respectively.
 - 5.5.2 Each area of assessment will be weighted and will contribute a specific part to the total score.

- 5.5.3 KPA's covering the main areas of work will account for 80% and Competencies will account for 20% of the final assessment.
- 5.6 The Employee's assessment will be based on his performance in terms of the outputs/outcomes (performance indicators) identified as per attached Performance Plan (ANNEXURE A), which are linked to the KPA's, and will constitute 80% of the overall assessment result as per the weightings agreed to between the Employer and Employee. The competencies will make up the other 20% of the Employee's assessment score.

5.7 The competency framework as set out in the Regulations on Appointment and Conditions of Employment of Senior Managers (17 January 2014) consists of six leading competencies which comprise twenty driving competencies that communicate what is expected for effective performance in local government, and six core competencies that act as drivers to ensure that the leading competencies are executed at an optimal level.

6. PERFORMANCE ASSESSMENT

- 6.1 The Employee's performance will be measured in terms of contributions to the goals and strategies set out in the Employer's Integrated Development Plan (IDP);
- 6.2 The Employee will submit his self-assessment to the Employer prior to the formal assessment;

with due regard to ad-hoc tasks that had to be performed under the KPI.

6.3.1.2 The assessment of the performance of the Employee will be based on the following rating scale for KPI's:

Rating	Terminology	Description

The appraisal indicates that the Employee has achieved above fully effective results against all performance criteria and indicators as specified in the Performance Plan and maintained this in all areas of responsibility throughout the year.

The Employee has failed to demonstrate the commitment or ability to bring performance up to the level expected in the job despite management efforts to encourage improvement.

- 6.3.1.3 The rating will then be multiplied by the weighting to calculate the final score;
- 6.3.1.4 An overall rating will be calculated based on the total of the individual ratings calculated above.
- 6.3.1.5 In the instance where the employee could not perform due to reasons outside the control of the employer and employee, the KPI will not be considered during the evaluation. The employee should provide sufficient evidence in such instances; and

SUBMISSION OF THE DRAFT TOP LAYER SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (TL-SDBIP) FOR THE 2022/23 FINANCIAL YEAR BY THE EXECUTIVE MAYOR

The Municipal Finance Management Act, 2003, (Act 56 of 2003), requires that municipalities must draft, adopt and submit to the Mayor the Top Layer Service Delivery and Budget Implementation Plan (SDBIP) following the approval of the draft integrated Development Plan and Budget as a strategic financial management tool to ensure that budgetary decisions that are adopted by Council are aligned with the integrated Development Plan (IDP).

I herewith approve the draft Top Level Service Delivery and Budget Implementation Plan for 2022/23.

PERFORMANCE MANAGEMENT FRAMEWORK

1. INTRODUCTION

Performance management within a municipal environment is institutionalised through the legislative requirements on the performance management process for Local Government. The Service Delivery and Budget Implementation Plan (known as the SDBIP) is a detailed plan as approved by the Mayor for implementing the municipality's delivery of municipal services and its annual budget. The municipality decided to pursue a municipal scorecard (Top Level/Layer SDBIP) at organisational level and through the detailed departmental Service Delivery Budget Implementation Plan (SDBIP) at directorate and departmental levels through which the organisational performance will be evaluated. The municipal scorecard (Top Level SDBIP) is of a high-level nature, as it's dealing with consolidated service delivery targets set by Council and linking such targets to top management. It therefore reflects performance on its strategic priorities and facilitates the oversight over financial and non-financial performance of the municipality.

LEGAL PERSPECTIVE EXTRACT: MUNICIPAL FINANCE MANAGEMENT ACT, 2003 (ACT 56 OF 2003) (MFMA) DEFINITION:

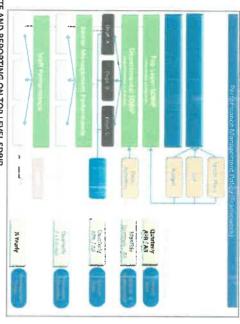

"Service Delivery and Budget Implementation Plan" means a detailed plan approved by the Mayor of a municipality in terms of Section 53(1)(c)(ii) of the Municipal Finance Management Act (MFMA) for implementing the municipality's delivery of municipal services and its annual implementing the municipality's delivery of municipal services and which must indicate the following —

- (a) projections for each month of
- revenue to be collected, by source;
- (ii) operational and capital expenditure, by vote;
- (b) service delivery targets and performance indicators for each quarter; and

(c) any other matters that may be prescribed, and includes any revisions of such plan by the Mayor in terms of Section 54(1) (c) of the MFMA.

3. PROCESS: MUNICIPAL SCORECARD (TOP LEVEL SDBIP)

The diagram below illustrates the process relating to the drafting of a municipal scorecard which serves as a performance monitoring and evaluation tool.

4. UPDATE AND REPORTING ON TOP LEVEL SDBIP

The Top Level SDBIP is updated automatically with the actual results reported in the departmental SDBIP. All KPI owners report on the actual results related to the KPI by accurately recording performance information in the response fields. The municipality utilises an electronic web-based system on which KPI owners update actual performance monthly. It is the responsibility of each KPI owner to maintain a Portfolio of Evidence to support actual performance updated on the system. Where targets were not met or achieved as set in terms of the SDBIP, corrective actions and measures are identified to address such poor performance

PERFORMANCE REPORTING ON THE SDBIP

Performance must be reported in terms of the Municipal Systems Act (MSA), MFMA and the circulars and regulations issued in terms of the legislation. The monitoring and evaluation of organisational performance are reported on as follow:

5.1 QUARTERLY REVIEWS

On a quarterly basis, the Executive Mayor should engage in an intensive review of municipal performance against both the directorate's scorecards and the municipal scorecard, as reported by the Municipal Manager. These reviews will take place in October (for the period July to end of September), January (for the period October to the end of December), April (for the period January to the end of March) and July (for the period April to the end of June).

5.2 MID-YEAR REVIEW

March ALDN From ALDN

The mid-year performance assessment in January is as per Section 72 of the Municipal Finance Management Act. Section 72 determines that by 25 January of each year the accounting officer must assess the performance of the municipality and report to the Council on, inter alia, its service delivery performance during the first half of the financial year and the service delivery targets and performance indicators set in the service delivery and budget implementation plan. Many of the indicators in the municipal scorecard are measured on an annual basis. The Executive Mayor will need to ensure that targets committed to in the municipal scorecard are being met, in instances where targets are not met; satisfactory and sufficient reasons should be provided together with the necessary corrective actions to address poor performance.
