F.3.1.2 Consider any request to make a material change in the capabilities or formation of the tendering entity (or both) or any other criteria which formed part of the qualifying requirements used to prequalify a tenderer to submit a tender offer in terms of a previous procurement process and deny any such request if as a consequence:

- a) an individual firm, or a joint venture as a whole, or any individual member of the joint venture fails to meet any of the collective or individual qualifying requirements;

Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as quoted shall govern, and the unit rate shall be corrected.
- c) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer’s addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if bills of quantities apply) to achieve the tendered total of the prices.

Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

Where:

- P_s* = Points scored for price of bid under consideration;
- P_t* = Price of bid under consideration; and
- P_{min}* = Price of lowest acceptable bid.

Dear Madam

COMMENT ON THE APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) WITH REGARDS TO THE PROPOSED FORMALISATION OF A FOOTPATH ON THE REMAINDER ERF NO. 1002 AND THE PROVISION OF ABLUTION FACILITIES AND TRADING STALLS ON ERF NO. 3205, PORTERVILLE

- Your correspondence dated 4 December 2018, as received by this Department on the same date, refers.
- Your attention is drawn to the listed activities in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") Environmental Impact Assessment ("EIA") Regulations, 2014 (as amended) as defined in Government Notice ("GN") No. R. 983, R. 984 and R. 985 of 4 December 2014. These Regulations came into effect on 8 December 2014. All activities identified as listed activities in the EIA Regulations, 2014 (as amended) that had not been commenced with on 8 December 2014, must not be undertaken without an Environmental Authorisation from the competent authority.
- This Department has reviewed the information and noted the following:
 - The proposed development entails the formalisation of a footpath on the Remainder Erf No. 1002 and the provision of ablution facilities and trading stalls on Erf No. 3205, Porterville.
 - The proposed sites are currently zoned as follows:
 - Remainder Erf No. 1002: Agriculture Zone I
 - Erf No. 3205: Community Zone III
 - The proposed sites are located within the urban area.
 - The existing informal footpath extends from the intersection of Voortrekker and Park Streets to the residential area bordering Disa Street.
 - The ablution facilities and trading stalls will be situated on the corner of Voortrekker and Park Streets.

- The sites have been significantly altered and no vegetation will be impacted on.
- A wetland area is located adjacent to the informal footpath towards the residential area bordering Disa Street and a concrete crossing provides access across the wetland area.

4. Your attention is also drawn to the following:

The "regulated area of a watercourse" for section 21 (c) or (i) water uses of the National Water Act, 1998 (Act No. 36 of 1998) means:

- "(a) The outer edge of the 1 in 100-year flood line and/or delineated riparian habitat, whichever is the greatest distance, measured from the middle of the watercourse of a river, spring, natural channel, lake or dam;
- (b) In the absence of a determined 1 in 100-year flood line or riparian area the area within 100m from the edge of a watercourse where the edge of the watercourse is the first identifiable annual bank fill flood bench (subject to compliance to section 144 of the Act); or
- (c) A 500 m radius from the delineated boundary (extent) of any wetland or pan".

The proposed activities fall within a 500m radius of a wetland. Any activity within a 500m boundary radius of a wetland triggers a water use in terms of section 21 (c) or (i) of the National Water Act, 1998 (Act No. 36 of 1998). You are therefore required to consult with the Department of Water and Sanitation to determine whether a General Authorisation or Water Use Licence Application process must be followed.

5. Please be advised that, based on the information provided, and as long as the formalisation of the informal footpath will remain within its current development footprint, the proposed formalisation of a footpath on the Remainder Erf No. 1002 and the provision of ablution facilities and trading stalls on Erf No. 3205, Porterville does not appear to constitute any listed activities as defined in terms of the EIA Regulations, 2014 (as amended). Written authorisation is therefore not required from the competent authority prior to the undertaking of the said activity. This determination is based on the following:

5.1 No infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse will take place, therefore Activity 19 of GN No. R. 983 of 4 December 2014 will not be triggered:

Activity 19:

"The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse;

but excluding where such infilling, depositing, dredging, excavation, removal or moving-

- (a) *will occur behind a development setback;*
- (b) *is for maintenance purposes undertaken in accordance with a maintenance management plan;*
- (c) *falls within the ambit of activity 21 in this Notice, in which case that activity applies;*
- (d) *occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or*
- (e) *where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies".*

5.2 The site is largely devoid of natural vegetation and no vegetation will be cleared, hence Activity 27 of GN No. R. 983 and Activity 12 of GN No. R. 985 of 4 December 2014 will not be triggered:

Activity 27 of GN No. R. 983:

"The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for-

- (i) the undertaking of a linear activity; or
- (ii) maintenance purposes undertaken in accordance with a maintenance management plan".

Activity 12 of GN No. R. 985:

"The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.

- i. Western Cape
 - i. Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;
 - ii. Within critical biodiversity areas identified in bioregional plans;
 - iii. Within the littoral active zone or 100 metres inland from high water mark of the sea or an estuarine functional zone, whichever distance is the greater, excluding where such removal will occur behind the development setback line on erven in urban areas;
 - iv. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning; or
 - v. On land designated for protection or conservation purposes in an Environmental Management Framework adopted in the prescribed manner, or a Spatial Development Framework adopted by the MEC or Minister".

5.3 The site is located within the urban area, therefore Activity 12 of GN No. R. 983 and Activity 14 of 4 December 2014 will not be triggered:

Activity 12 of GN No. R. 983:

"The development of -

- (i) dams or weirs, where the dam or weir, including infrastructure and water surface area, exceeds 100 square metres; or
- (ii) infrastructure or structures with a physical footprint of 100 square metres or more;

where such development occurs -

- (a) within a watercourse;
- (b) in front of a development setback; or

Dear Madam

COMMENT ON THE APPLICABILITY OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014 (AS AMENDED) WITH REGARDS TO THE PROPOSED UPGRADING OF A RIVER CROSSING AND THE PROVISION OF BRAAI AND PARKING FACILITIES ON THE REMAINDER ERF NO. 1002, PORTERVILLE

1. Your correspondence dated 4 December 2018, as received by this Department on the same date, refers.
2. Your attention is drawn to the listed activities in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) ("NEMA") Environmental Impact Assessment ("EIA") Regulations, 2014 (as amended) as defined in Government Notice ("GN") No. R. 983, R. 984 and R. 985 of 4 December 2014. These Regulations came into effect on 8 December 2014. All activities identified as listed activities in the EIA Regulations, 2014 (as amended) that had not been commenced with on 8 December 2014, must not be undertaken without an Environmental Authorisation from the competent authority.
3. This Department has reviewed the information and noted the following:
 - The proposed development entails the upgrading of a river crossing and the provision of braai and parking facilities on the Remainder Erf No. 1002, Porterville.
 - The proposed site is currently zoned Agriculture Zone I.
 - The proposed site is located within the urban area.
 - The site has been significantly altered and no vegetation will be impacted on.
 - The existing concrete crossing across the watercourse will be replaced and upgraded.
4. Please be advised that, based on the information provided, the upgrading of a river crossing and the provision of braai and parking facilities on the Remainder Erf No. 1002, Porterville does not appear to constitute any listed activities as defined in terms of the EIA Regulations, 2014 (as amended). Written authorisation is therefore not required from the competent authority prior to the undertaking of the said activity. This determination is based on the following:

4.1 As per the interpretation of Circular 24 of 2014, you need not obtain Environmental Authorisation prior to the proposed construction works taking place. This determination is based on the following:

- During the construction of the existing concrete crossing, earth moving activities within the watercourse had already been commenced with.
- The development is considered to have commenced prior to the date that the requirement for Environmental Authorisation was effected.
- The proposed infilling of the watercourse where sediment removal of more than 10m³ will occur can thus be undertaken without prior Environmental Authorisation, and as such, Activity 19 of GN No. R. 983 of 4 December 2014 will not be triggered:

Activity 19:

"The infilling or depositing of any material of more than 10 cubic metres into, or the dredging, excavation, removal or moving of soil, sand, shells, shell grit, pebbles or rock of more than 10 cubic metres from a watercourse;

but excluding where such infilling, depositing, dredging, excavation, removal or moving-

- (a) will occur behind a development setback;*
- (b) is for maintenance purposes undertaken in accordance with a maintenance management plan;*
- (c) falls within the ambit of activity 21 in this Notice, in which case that activity applies;*
- (d) occurs within existing ports or harbours that will not increase the development footprint of the port or harbour; or*
- (e) where such development is related to the development of a port or harbour, in which case activity 26 in Listing Notice 2 of 2014 applies".*

4.2 The site is largely devoid of natural vegetation and no vegetation will be cleared, hence Activity 27 of GN No. R. 983 and Activity 12 of GN No. R. 985 of 4 December 2014 will not be triggered:

Activity 27 of GN No. R. 983:

"The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation, except where such clearance of indigenous vegetation is required for-

- (i) the undertaking of a linear activity; or*
- (ii) maintenance purposes undertaken in accordance with a maintenance management plan".*

Activity 12 of GN No. R. 985:

"The clearance of an area of 300 square metres or more of indigenous vegetation except where such clearance of indigenous vegetation is required for maintenance purposes undertaken in accordance with a maintenance management plan.

i. Western Cape

- i. *Within any critically endangered or endangered ecosystem listed in terms of section 52 of the NEMBA or prior to the publication of such a list, within an area that has been identified as critically endangered in the National Spatial Biodiversity Assessment 2004;*
- ii. *Within critical biodiversity areas identified in bioregional plans;*
- iii. *Within the littoral active zone or 100 metres inland from high water mark of the sea or an estuarine functional zone, whichever distance is the greater, excluding where such removal will occur behind the development setback line on erven in urban areas;*

- iv. On land, where, at the time of the coming into effect of this Notice or thereafter such land was zoned open space, conservation or had an equivalent zoning; or
- v. On land designated for protection or conservation purposes in an Environmental Management Framework adopted in the prescribed manner, or a Spatial Development Framework adopted by the MEC or Minister".

4.3 The site is located within the urban area, therefore Activity 12 of GN No. R. 983 and Activity 14 of 4 December 2014 will not be triggered:

Activity 12 of GN No. R. 983:

"The development of -
