BERGRIVIER MUNICIPALITY

SPECIFICATIONS

RENDERING OF RECYCLING SERVICES FOR THE TOWN OF PIKETBERG

1. DEFINITIONS

In the Contract the following words and expressions shall have the meanings hereby assigned to them except where the context otherwise requires:

- 1.1 *Household Hazardous Waste* (HHW) is post-consumer waste generated at residential properties, regarded as hazardous when discarded. HHW products have the potential of causing environmental pollution and injury to human health. HHW products behave as fully regulated hazardous waste due to the potential for reactivity, ignitability, corrosively, toxicity or persistence. HHW may occur in small quantities in the source separated recycling stream, general domestic waste stream or source separated HHW taken to a drop-off by the public. HHW includes amongst others old paint and paint-related products, pesticides, pool chemicals, drain cleaners, degreasers, car care products, fluorescent tubes, CFL's, batteries and other common household detergents and solvents. Health Care Risk Waste and old pharmaceuticals are not regarded as HHW and will not be accepted at all.
- 1.2 *Dry Co-mingled Waste or Recyclables* includes all materials that can be safely removed from the waste stream such as paper, glass, plastics, metals, cardboard and polystyrene.
- 1.3 *Wet Co-mingled Waste* includes all municipal waste that has not been pre-sorted by the producer and contains amongst other Recyclables and non-recyclables as well as food wastes.
- 1.4 *Contaminants and tailings* shall have the same meaning, namely, the co-mingled waste fraction passing through the Materials Recovery Facility (MRF) and being disposed of on the landfill and thus not being collected for recycling in the MRF.
- 1.5 *Residential Erven* means properties zoned for residential use.
- 1.6 *Service Point* means properties zoned for residential use, issued with a clear bag for the collection of recyclables within the designated collection area.

2. SCOPE OF WORKS

The Bergrivier Municipality (**BM**) propose to continue source separated recycling activities for the town of Piketberg:

- 2.1 Operate and maintain a Materials Recovery Facility (MRF), situated next to the Piketberg Transfer Station (PBTS). The Facility will be used by the contractor to recycle materials collected form the Piketberg area as well as materials delivered from the Piketberg, Porterville, Redelinghuys, Eendekuil, Wittewater and Goedverwacht collection areas (all within the Bergrivier's area).

BERGRIVIER MUNICIPALITY

2.2 Collect “dry” co-mingled recyclables (in clear bags) from all domestic households participating in the recycling project, within Piketberg.

2.3 Implement a comprehensive Awareness, Marketing and Publicity Campaign to educated residents of the BM’s “separation–at-source” waste minimisation project in conjunction with BM to maximise participation rates within Piketberg and surrounding farms on a quarterly basis.

BM wishes to contract out these services starting at the commencement date of the contract for a 24 month period.

3. **OBJECTIVE**

In response to the legal requirements of the National Environmental Waste Management Act of 2009 (NEMWA), BM has developed its own MRF facility, with the objective of diverting waste away from the landfills currently serving the BM. The MRF facility furthermore supports BM’s Integrated Waste Management Policy and Plan and Waste Minimisation Strategy.

Provision is made in the Pricing Schedule for the Contractor to submit an offer for a “dry’ household waste collection service to every Service Point within a designated area. It is the intention to issue the Service Points with clear bags for the collection of “dry” recyclables. The bags are to be collected on the same day the Municipality collects black bags from these Service Points. New bags are to be left at the Service Point at this time for the next week’s collection.

Commercial, Agricultural and Industrial (Trade) recyclables suitable for recovery at the MRF, collected from within or outside of the defined household catchment area (but from within the BM area), can be brought by the Contractor or other external waste collection contractors to the MRF **without** having to pay BM’s normal waste disposal gate fee (i.e. at a zero tariff for recyclables) .No additional payment will be paid to the contractor for collecting and transporting recyclable materials from commercial and industrial properties.

The Contractor may deliver and/or receive recyclables from his own sources for recovery at the MRF with prior written approval from the Employer, provided that the first preference for the recovery of materials is always given to BM’s recyclables delivered to the MRF.

No recyclables from outside of the BM Area will be accepted at MRF’s without approval in writing from the Employer.

4. **AWARENESS, MARKETING AND PUBLICITY CAMPAIGN**

The primary objectives for the BM in terms of this project are to:

4.1 Create awareness, provide information and solicit participation from the residents, businesses and farms in the area on a quarterly basis.

4.2 Reduce the amount of waste being landfilled (business and residential focus)

4.3 Divert recyclables through separation at source (business and residential focus)

4.3 Increase local waste minimisation targets year on year in support of achieving National waste targets

To achieve these objectives, the Contractor is to:

BERGRIVIER MUNICIPALITY

- 4.4 Communicate and engage with the residents and businesses 'on the ground' to devise a successful recycling strategy.
- 4.5 Produce informative communication and marketing material.
- 4.6 Obtain maximum participation for the duration of the contract whilst continuously aiming to increase the participation rate.

5. DURATION OF CONTRACT

In terms of the Tender, the Duration of the Contract shall be from the commencement date for a 24 month period. The commencement date is being targeted as 1 July 2020, but cannot be guaranteed.

6. WORKING HOURS

The Contractor is to limit the conducting his operations to the permitted operating hours of the Piketberg Transfer Station (PBTS), which are as follows:

07:30 – 18:00 Monday – Friday & Public Holidays

09:00 – 14:00 Saturdays (closed Sundays)

The Contractor will be given due notice of any substantive changes to these hours at any time during the contract period. The collection of the recyclable materials will be in accordance with the Municipalities waste removal program for each town (to be specified to bidder upon commencement date).

7. WASTE QUANTITIES

The quantities of waste delivered daily to the MRF will vary due to collection beat layout and day of removal, seasonal, operational and other external factors, and the Contractor is required to adjust his operations to accommodate such fluctuations within the tendered rates.

8. CONTRACTOR'S OBLIGATIONS

8.1 **Materials Recovery Operations**

8.1.1 The Contractor will be responsible for the collecting, handling, sorting, reuse and/or sale of recyclables recovered from the MRF, and no payment by the Employer for further costs will be considered other than the tendered costs. The ownership of the recyclable materials shall vest with the Contractor, who shall be responsible for the disposal and transportation of such materials from the site. The income received from the sale of the recyclables shall belong to the Contractor.

8.1.2 The MRF building and BM-owned fixed plant and equipment may only be used for the intended use of recovering recyclable materials and for no other unrelated use.

BERGRIVIER MUNICIPALITY

- 8.1.3 No claim for any additional expenditure due to a decrease in the demand for recyclables, the non-availability of a sorting area or material recycling infrastructure, the continued participation or participation ratio of residents, the consistency in waste quality or quantity, and continued marketing or any other costs not reflected in the tendered rates, will be considered.
- 8.1.4 The Contractor shall be responsible for the optimal operation of the MRF and processed in accordance with the process flow requirements of the plant under the full-time supervision of a qualified plant superintendent.
- 8.1.5 The Contractor shall ensure that the waste processed does not contain large, sharp or types of materials that may damage the plant and equipment.
- 8.1.6 Residual waste that is not removed from the sorting belts and stations, referred to as tailings, is to be conveyed to a dedicated container, provided by the Contractor, outside the MRF building which will be removed (when full) by the Contractor and weighed by the Employer before being deposited to the Piketberg Transfer Station by the Contractor.
- 8.1.7 The Contractor shall be required to furnish, maintain and operate sufficient plant and vehicles to undertake the specified services. The Contractor shall be required to provide all "non-fixed" plant, vehicles, fuel, lubricants, equipment, tools, materials, labour and any other items required to undertake the MRF operating services described in this tender, other than the fixed plant and equipment provided by the BM within the MRF building. A list and description of the plant, vehicles and equipment (including containers required for use within the MRF building) that will be provided by the Tenderer must be stated in the Returnable of the tender document.
- 8.1.8 The Contractor shall be required to maintain all buildings and fixed plant and equipment in a clean, sound condition and in full working order. All regular routine inspections, maintenance and servicing shall be carried out by an approved service provider. The Employer may undertake independent plant inspections and audits from time to time and the Contractor shall ensure that such inspections are fully accommodated. It should be noted that any negligence or abuse to the plant by the Operator and any costs incurred as a result of such negligence or abuse will be for the cost of the Contractor.
- 8.1.9 The Contractor shall insure all of his (or his subcontractor's) own plant and equipment used to undertake the operations required in terms of the Contract. The Employer will be responsible for taking out insurance cover for the buildings and fixed plant and equipment, but this will not relieve the Contractor from his responsibility to maintain the MRF buildings and fixed plant and equipment in a sound condition at his own cost for the duration of the Contract.
- 8.1.10 In the event of vehicle, plant or equipment break-down, the Contractor will be responsible for all necessary arrangements and costs to restore such vehicle, plant or equipment to full operating order. No costs arising from down-time or stoppages due to failure, servicing or repairs undertaken to mechanical plant or equipment will be paid for by the Employer. Costs for repairs resulting from the Operator's failure to adhere to the instructions stated in the Plant and Equipment Operating Manuals shall be paid for by the Operating Contractor.
- 8.1.11 Electricity and water to the facility shall be paid by the Contractor.
- 8.1.12 The Contractor shall supply all baling wire to the correct standard and specifications for the

Odour-control and air-extraction systems have been provided, and the Contractor shall be responsible for the supply of deodorising materials.
- 8.1.14 In the execution of the service to be provided under this Contract, the Contractor shall furthermore:

 - f. Minimise the storage of recovered materials and bales for periods of time considered reasonable to the Employer, without giving rise to odour, litter, vector and other nuisances.
 - g. Exercise all reasonable care and diligence in the handling and transportation of the Employer's containers in its charge.
 - h. Ensure that all drivers, operators and other employees are properly trained for the work they are required to perform and that all drivers are in possession of a current drivers licence and Professional Driving Permit appropriate to the class of vehicle being driven. The Contractor shall ensure that at all times all drivers shall have available for inspection such drivers licence.
 - i. Ensure that all the requirements of the Occupational Health and Safety Act (85 of 1993) as stated in Clause 8.9 of the "Special Conditions of Contract" are fully complied with. The construction Regulations 2014 must also be adhered to.

- 8.1.15 The Contractor's staff may not under any circumstances interfere with the Employer's operations at the PTS.
- 8.1.16 Proof of all transactions, sale or re-use of recyclables [vehicle registration numbers, date of transaction, volumes and mass per recyclable waste type e.g. PET, glass, cardboard, paper (office, newspaper, mixed etc.) plastics, tins etc.] must be provided on a monthly basis. The
-

BERGRIVIER MUNICIPALITY

Contractor shall maintain daily, weekly and monthly records and provide them to the Employer.

- 8.1.17 The Contractor's tendered rate for operating the MRF shall include for all costs necessary to provide full security of the plant, equipment and materials contained within the MRF building. The Contractor must not rely on the Employer to provide any security. The Contractor shall not be permitted to allow any staff to live on the site.
- 8.1.18 All equipment (vehicle, labour etc.) must be provided by the Contractor. A list of equipment must be attached to tender documents. **By not submitting the required list, will lead to disqualification of tender.**
- 8.1.19 Upon completion or termination of the Contract, the Operating Contractor shall ensure the MRF facility and all plant and equipment are restored and handed over to the Employer in a satisfactory and clean condition, with all plant in full working order, together with all maintenance and other records relating to the fixed plant, all to the satisfaction of the Employer. The rate tendered for the operation of the MRF is to include for all costs necessary to meet the requirements stated above.

8.2 "Dry" waste collection service

8.2.1 Implementation and Operations Plan

The collection routes must be designed to fit in with the Employer's overall existing regular general household Monday to Friday collection beat schedule for the service area, and a detailed operations plan in accordance with the tendered business plan, indicating routes, scheduled collection days, vehicle allocations, contingency plans etc. must be submitted to the Employer for approval prior to the commencement of the Contract. The collection day shall fall on the same day as the household's normal "wet" waste (black bags) removal day. Contractors are to note that the normal "wet" waste removal days are not evenly distributed for each week day and consequently the daily workload could differ significantly each day.

Should the Employer change part, or all of the scheduled collection days, the Contractor will be advised prior to such change. Normal operating hours should not be longer than Monday – Friday (07h30 – 17h00).

All "dry" recyclable waste collected from the designated collection catchment area must be transported to the Piketberg MRF for recovery.

8.2.2 Collection Points

Residents are to be instructed to place their "dry" co-mingled recyclable waste in the clear bags to be provided by the Contractor. The bags are to be placed on the kerb side just outside their properties / group housing complex / refuse storage area on collection day, and collection must be undertaken from this point. The Contractor must reinforce this requirement via its comprehensive awareness, marketing and communication programme with the public in order to maximise the number of bags actually placed on the kerbside for collection. New replacement bags are to be provided by the Contractor to the residents upon collection of their full bags.

8.2.3 Contractor's Staff

All workers and where possible drivers and supervisory staff should be preferably sourced from within the areas being serviced, as approved by the Employer. All staff must be properly trained. This training must, apart from functional training include, but not necessarily be limited to safety, customer relations and their rights and obligations in terms of the Labour Relations Act. The staff must also be
